

PASS ON PLASTICS!

Bruins – At UCLA we pass on plastic

UCLA Sustainability reminds the campus community to not purchase or provide single-use plastic items for UCLA-affiliated operations and activities – whether they're for your office, student groups or serving the broader public. This is required under the UCLA [Single-Use Plastics Policy](#), and is part of UCLA's efforts to combat the damaging health and environmental impacts of plastics.

Instead of single-use items like plastic bottled water or utensils, select products that will either be:

- reused
- recycled
(like aluminum, paper, and glass)
- OR
- composted
(i.e. made with 100% fiber-based materials)

UCLA's [Single-Use Plastics Policy](#) applies to all office, event, retail, and food & drink operations, including:

- **Foodservice facilities**
(dining halls, food trucks, etc.)
- **Stores**
(Ackerman Union, Lu Valle Commons, etc.)
- **Events**
(conferences, meetings, fairs)
- **Catering services**
(UCLA, ASUCLA, UCLA Health, and all third-party vendors)

For more details and resources, click [HERE](#).

If you see single-use plastic, please report it [HERE](#).
